#### A Mistake.

The impression appears to prevail among many Democrats that we have no Job Office connected with the SEN-TINEL office. This is a mistake. There is no office in the city that is so well prepared to do all kinds of BOOK AND JOB PRINTING as we are (except large bill posters), and we will feel under obligations to all Democrats, not only in the city, but in the State, for any work they can send to our office. We have ro public patronage to depend on to aid the paper-we ask the party to aid us with their work, as far as they can. We can do as good work, and on as good terms, as any other office.

#### SPEECHES OF Hendricks and Voorhees.

The speech of Hon. Thomas A. Hendricks, before the Democratic Convention on the Eighth of January, 1862, and the speech of Hon. Daniel W. Voorhees, in the House of Representatives, February 20, on the duty of the Federal Government in its relations to the civil war and the objects for which it should be prosecuted, are for sale at this office, published in a pamphlet of sixteen pages, including both speeches. Each one is among the ables delivered on the present crisis, and should be placed in the hands of every voter in the State.

SANDY HOOK, May 17 .- The Great Eastern has just come up. She is from Milford Haven, with Liverpool dates to the 6th inst. LIVERPOOL, May 6 .- The Paris Patrie says the visit of the French Minister to Richmond was

entirely political, and that its purport was known to President Lincoln. The Times says that the true test of public feeling in the North will come when the taxes are collected. Meantime so long as the Federals are not absolutely winners they are losers, whereas so long as the Confederates are not actually subdued they may regard themselves as winning. These are considerations which counterbalance

the superiority of the North. Capt. Wilson, who recaptured the Emily St. Pierre from the prize crew, has been formally presented by numerous Liverpool merchants with a valuable service of plate and a gold chronometer, also with a sextant from his own crew, and with £2,000 by the owners of the ship. The Mercantile Marine Association in Liverpool also announced its intention to present him with a gold medal and his cook and steward with silver medals. Valuable money presents were also made to the cook and steward. Speeches eulogistic of the Captain's act were made on the oc-

casion by several prominent merchants. The Paris Patrie asserts that the French Minister at Washington had a long conference with Jeff Davis at Richmond; that the step taken by Mercier is entirely political in its character, and was known to President Lincoln.

The London Morning Herald argues that from reports of Mercier's mission to Richmond, that the beginning of the end is not far distant. It says that France and England suffer more than neutrals ever suffered from any contest. Both begin to regard the war as interminable and atro-
